

About NIT Raipur

National Institute of Technology, Raipur situated in the capital of Chhattisgarh, has proven to be 'avant-grade' in the field of science and technology over past few decades in this region. With sweet memory of foundation ceremony by our president Hon'ble Dr. Rajendra Prasad on 14th September 1956. The institute started with two departments namely Metallurgical and Mining Engineering. Later the inauguration of the Institute building was done by our Prime Minister Hon'ble Pt. Jawahar Lal Nehru on 14th March 1963. From 1st December 2005, the institute has become the National Institute of Technology. It is well connected with Mumbai, Delhi and all metro cities by regular flights and is on the main Howrah-Mumbai railway route. The institute is 5 km from the Raipur railways station and 18 km from airport on NH-6, the Great Eastern Road.

National and Industrial Collaboration Cell (NICC)

The objectives of NICC as follows:

- To facilitate joint research work, consultancy involving faculty and students.
- To seek and associate experts from industry in curriculum development and review.
- To identify continuing education opportunities, short-term programmes and training needs of the industry, which the institution can provide.
- To promote revenue generating activities for the institution like Lab Testing, Calibration, Consultancy and R&D etc.
- To assess periodically the scientific and technological scenario/ happenings in India in order to translate it into action for taking up future R&D work.

Registration

For online Registration go through the following link: <https://tinyurl.com/y3ueaeyd> or at the phone numbers provided.

Chief Patron

Dr. A. M. Rawani, Director, NIT Raipur

Chairperson

Dr. (Ms.) S.L. Sinha, Prof. I/C NICC
Professor, Department of Mechanical Engineering,
NIT Raipur

Organizing Secretary

Dr. N.V. Swamy Naidu
Associate Professor, Department of Mechanical
Engineering, NIT Raipur

Organizing Committee

Dr. Manoj Chopkar
Dr. Kavita Tapadia
Dr. Harendra Bikrol
Dr. Jagadish

Address for Correspondence

Dr. S.L. Sinha,
Email: slsinha.mech@nitrr.ac.in
Contact No.: +91-9826315780

Dr. N.V. Swamy Naidu,
Email: nvsnaidu.mech@nitrr.ac.in
Contact No.: +91-9963390988

INDUSTRY-INSTITUTE CONCLAVE 2019

The Exigency

The current corporate scenario is predominantly based on the concept of demand and supply and thus the industries have become increasingly market oriented. Likewise the process of recruitments is largely governed by the prevalent business environment. New recruits spend quite some time in a training period when they join a company which is mainly because of the lack of practical training imparted to the students. In the wake of this, we at NIT Raipur have recognized the imminent need to modify the academics, adopting a pragmatic approach that facilitates learning patterns that suit the industry demand. The IIC 2019 is a unique platform that will bring together experts from the industry to evolve innovative solutions to vital issues looming in the realms of the industry and academia. IIC 2019 is a measure to ensure that the academia keeps updating itself with the changing industrial paradigms and encourages a change in the student mentality. Considering these versatile requirements of the industry, IIC 2019 will help us keep abreast with the latest industrial developments.

Theme

- Nurturing and unifying the cycle - “Technology, Industry and Research”
- To cultivate the strong links with industry

These themes would be deliberated upon in the conclave that would be a two day affair featuring talks and presentations by individuals from various niche companies ranging from engineering to healthcare as well as the academia comprising of the eminent faculty members from NIT Raipur. To supplement this, there will also be an interactive panel discussion session wherein a panel comprising of the faculty members, the industry personnel and the attendees would debate upon the various means through which the collaboration between industry and the academia can be maximized. The panel discussions will also try to shed light on some of the indispensable attributes necessary to thrive in the corporate milieu and also towards feasible solutions to fulfill corporate expectations with technical knowledge.

Highlights & Takeaways

- The faculties and students would be able to gauge the industry requirements and thus NIT Raipur could become a hub of employee scouting by the companies.
- The industry would benefit from the on-going R&D and could fund specific research projects.
- The direct interaction between the students and the industry personnel would also enable the students to plan their academic efforts in the right direction.
- The exchange of perspectives amongst industry personnel and the academia would provide an impetus for the various research and development opportunities that would lead to efficient and holistic industrial processes.

Most importantly all these efforts would prove instrumental in realizing our common aim of creating a strong workforce that would put India at the frontiers of research and innovation in the world.
