Topics for PPT Presentation for TEQIP Institute under TEQIP-III

Computer Sciences & Engineering

1. Software Development Methodologies
2. Cyber Security issues, challenges, and solutions
3. Computer Architecture and Engineering
4. Analysis of Algorithms and Data Structures
5. Artificial Intelligence design strategies
6. Machine learning techniques for real-world problem solving
7. Theory of automata and computability
8. Theory of formal languages and compiler designing
9. Design principles of wireless networks and applications
10. Design principles of large and efficient databases
11. Real-time parallel processing architectures
12. Medical image processing
